EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Nolan on 11/16/09.

The application has been amended as follows:

In claim 9, remove the words "computer readable medium" on line two and replace them with the word "memory".

2. The following is an examiner's statement of reasons for allowance: Claim 3 requires a plurality of components for performing an equipment selection operation including a user terminal for entering equipment and user information that is connected to a host computer which provides equipment information for display on the user terminal only after granting a display permission which is requested by the user terminal after user information and selection information is transmitted to the host computer. It is this unique combination of features that is novel and non-obvious in view of the prior art. The art discloses shopping over a network (Hanai), configuring products among related products (i.e. equipment selection, see Gupta) and processing on the client side of a server/client system (Yankovich). However, the art does not teach the claims as recited including the specific method of requesting a display permission only after transmitting user information – i.e. the display permission is not merely a username/password as known in the art. Claims 6 and 9 correspond and are therefore allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JASON RECEK whose telephone number is (571)270-1975. The examiner can normally be reached on Mon - Fri 9:00am-5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Saleh Najjar can be reached on (571) 272-4006. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
